March 2, 2026

Dear Ritchie Dealers,

Due to diminishing year to year sales, Ritchie Industries has announced they will be phasing out the 16440 CT6 and the 18090 Summer Cover.

We are still taking orders for these units, but have a delivery deadline of April 1, 2026. If you have customers showing interest, please order as soon as possible as time is very short to get inventory. Ongoing support for this unit for tops and covers will remain available for 5 years following the phase-out date through April 1, 2031.

After this period, a credit for the remaining warranty will be issued toward the purchase of another Ritchie unit. We have purchased CT6's for our stock, but want to stress that supplies are limited.

Please feel free to contact us if you have any further questions or concerns.

Sincerely,

Blake Miller - President 785-738-5781 Ext. 121
Gavin Beaumont - Sales 785-534-3731
Luke Simon - Sales 785-534-2941
