

THE CROWD PLEASER

Introducing Ritchie's Latest Large Herd Innovation

OMNIMASTER 8

Easy Keeper: Built To Be Both Rugged And Advanced

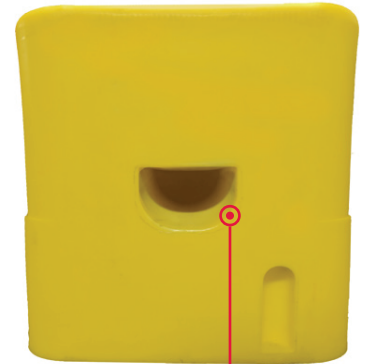

We've leveraged ninety-six years of experience to design the combination of features that make this unit the premier watering solution for large herds.

- Durably designed with a fully insulated casing and a unique wrap around stainless steel trough
- Thermostatically controlled heat coverage and fast refill valve will provide fresh, clean water even in the harshest winters
- Newly designed, built-in high capacity drain maintains clean drinking environment

Ritchie[®]
Fresh Water
For Life™

Well Bred: Combining The Best Omni And Cattlemaster Features

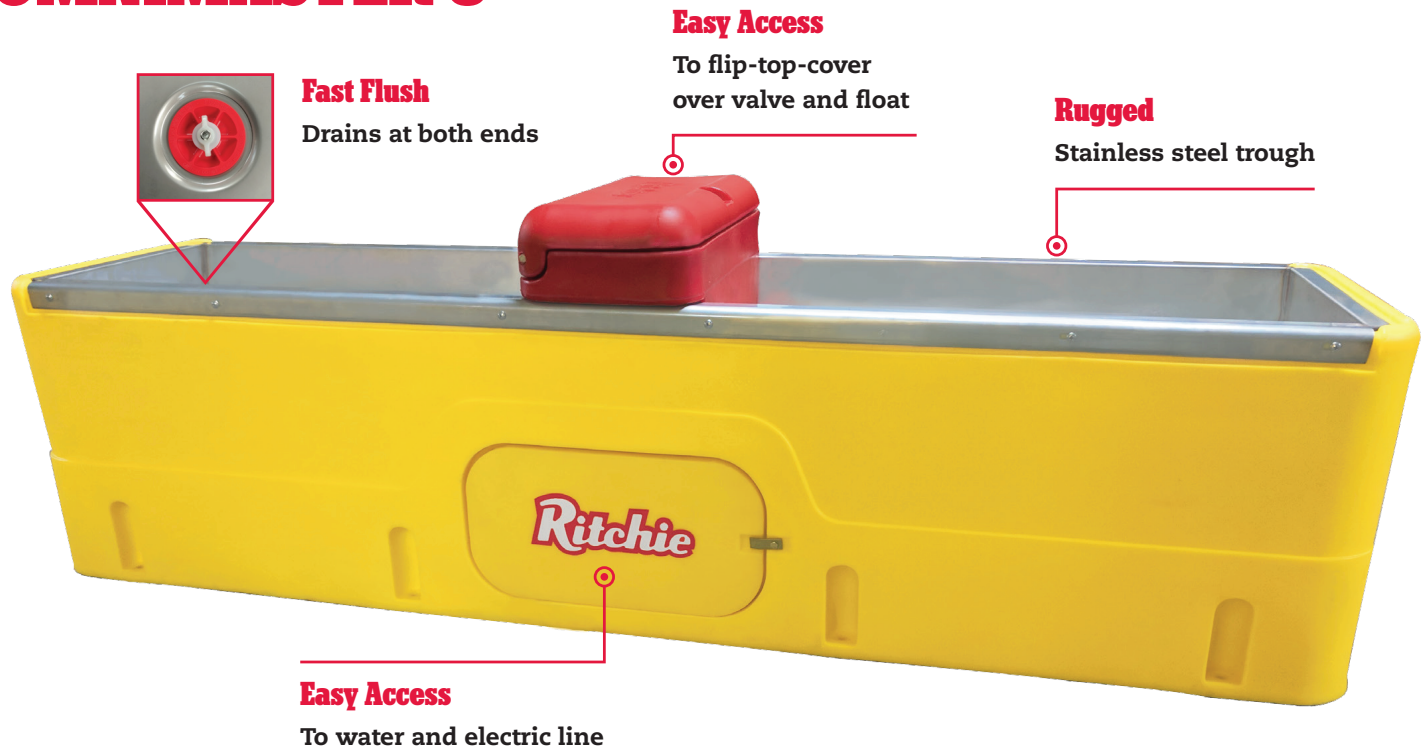

- Fully insulated casing for energy efficiency and durability
- Stainless steel trough with unique wrap around edge to protect against animal abuse
- Center valve chamber featuring a flip-top cover for easy access to valve and float
- Easy install on either side of alleyways
- Overall, thermostatically controlled heat protection for use in all climates
- Large access panel for easy maintenance
- Large drain plug and recessed drain feature to allow for fast and complete draining when cleaning

Drains in 30 Seconds

Large built-in drain hole
